DIT Review

- Who is using it?

- Is anyone interested in
    - swapping experiences?
    - critically reviewing DIT and possibly suggesting changes?

Brainstorming

- What's next?

Tour de Table: Status of RRDG Output usage

	Reg Metrics	Business Models	DIT	Comments
IONOS	No	No	Yes, classifying based on DIT	
CENTR	Yes, recommend all Members to supply Json Files using R.M. definitions		Crawling, using their own „Low Content" definitions.	
ICANN	Check how close ICANN's current reports' definitions are to the Reg Metrics.	-	-	Looking for colloboration opportunities. Building Open Data Platform
EURid	On Roadmap….	Not yet…	Yes. English good. Problems building datasets in other languages.	
SIDN	Almost ready	800/1200 registrars classified.	Using Higher Level NACE Codes.	Crawling once a month. Plus mail, TLS etc

Tour de Table: Status of RRDG Output usage cont.

	Reg Metrics	Business Models	DIT	Comments
DNS.be	New JSON Version end of 2019	Done Manual classification.	Manually. Creating crawler currently to more deeply classify. Currently Low content etc…	Focus on Cyber-Security currently…
Nic.at	Under evaluation and testing.	Yes	Yes. Also Clustering domains and labelling those. (Project in RDN group)	Data Sharing Model using Reg Metrics
DENIC	Yes, will be used in new dashboards…	Yes. Manually classified/Self-classified	No	
Safebrands				Crawling for trademark abuse…

Notes

- Registration Metrics:
  - Look at refining description/explanation of Metrics. That they are not technical definitions but rather for all in community to be able to understand.

- DIT
  - EURid interested in sharing data sets for building data sets.

- IDEAS
  - Classifying other things? EG Email usage, TLS etc…
  - Business Models:
    - Swap „data sets" within registries to see if registries have classified the same… Set-up telco???
    - Global list of registrars and their models… Managed by CENTR??

Notes

- RDN
  - 12 registries
  - Main topics crawling, then analysing it.
  - DNS analysis.
  - Next meeting in two weeks.
  - Sharing abuse lists/domains/fuzzy hash of sites??

- Registration Metrics
  - Phase 1 done.
  - Phase 2 common ratios. Also Low Content..

- Newsletter:
  - SIDN Interview idea
  - EURid would also like to feature in newsletter
